

It's a cold day

for the housekeeper when Pearlins gets left. Take Pearlins from washing and cleaning and nothing remains but hard work. It shows in the things that are washed; it tells on the woman who washes. Pearlins saves work, and works safely. It leaves nothing undone that you want done well; what it leaves undone, it ought not to do.

## BULL DAY IN STOCKS

Market Is Glutted With Money Forcing Capitalists

## TO INVEST IN RAILWAY BONDS

Buying for Foreign Account Added the Bullion-Wheat Was Higher, but Other Commodities Lower.

New York, Nov. 22.—Money on call has been easy, ranging from 1½ per cent; last hour at 1½ percent, and closing off at 1½ per cent.

Prize mercantile paper \$1.65 per cent.

Bar silver, 60¢. Mexican dollars, 80¢. Sterling exchange is firm, with actual business in bankers' bills at \$4.83½¢ to \$4.83¢ for sixty days and \$4.83½¢ to \$4.83¢ for demand.

Post rate, \$4.84½¢ to \$4.85¢; commercial bills, 6.81½¢ to 6.82¢ for sixty days and \$4.84½¢ to \$4.85¢ for demand.

Government bonds active and higher; state bonds firm; railroad bonds strong.

Silver at the stock exchange was neglected.

The bulls had control of the market at the stock exchange today except in the case of General Electric, which was weak from start to finish. The dealings in this stock amounted to 30,340 shares in a grand total of 30,000 shares. The first transactions were at 39½ and then the stock gradually settled down to 35¢. During the greater part of the day the railway list presented a strong front and the heaviest of General Electric had no effect. The buying for foreign account at the opening assisted the bulls. Another important factor was the buying of first-class railway mortgages by leading institutions. The glut of money is compelling institutions and capitalists to buy up stocks and bonds for the demand for money, speculative or for other purposes, and today a leading broker placed \$1,000,000 at 1 per cent, and is difficult to find even at those figures. The break in General Electric in the last hour of business checked the upward tendency in the railway market, but in the final dealing the market was tolerably firm.
